Data Science (2 Week Program)

Daily 3hours

Introduction

1) What is Data Science

2) Applications of Data science

Python

- History of python
- Strings
- List
- Tuples
- Sets
- Dict
- Loops and Functions
- Pandas, mat plot and Seaborn

Statistics

- Mean, Median, Mode
- Hypothesis, Central Limit
- Discrete Data and Continuous Data
- Eda Project

Machine Learning

- What Is Machine Learning
- How Will Learn Machine
- Types Of Machine Learning
- Names Of Machine Learning Algorithms
- Complete Linear Regression Algorithm
- Kenn Regression and Classification Overview
- One Machine Learning Project
- Deep Learning Overview
